### DETAILED ACTION

This application was filed 11/19/2003 and claims benefit of Provisional Application 60/446,668 (2/11/2003) which claims benefit of Germany 102 56 080 (11/29/2002). Claims 1-15 are before the Examiner.

#### *Claim Rejections - 35 USC § 112*

1. The rejection of claim 9 under 35 U.S.C. 112, second paragraph, is withdrawn due to applicant's amendments to the claim.

#### *Claim Rejections - 35 USC § 103*

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.

4. Considering objective evidence present in the application indicating obviousness or nonobviousness.
2. Claims 1-15 remain rejected under 35 U.S.C. 103(a) as being unpatentable over WO 02/45703 and WO 00/75114, for reasons of record.

Applicant has sent in an affidavit on 8/11/2006 showing that the activity of the combination of compounds of 2' and 1 is more than just additive and therefore, the 103 rejection should be withdrawn in light of unexpected results. However, there is no statistical analysis of the numbers presented in the annex 2, i.e. the standard deviation of the numbers presented in the table. Further, no explanation is given for the second set of numbers in the A, B and D columns. Due to this, no correlation between the affidavit given and unexpected results can be given and the rejection is upheld.

### *Conclusion*

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and

Art Unit: 1625

any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
